

Microsoft 365. We got this.

ShareGate is your go-to Microsoft 365 management solution for your big migrations and your everyday Teams and SharePoint operations.

ShareGate makes your Microsoft 365 admin jobs easy.

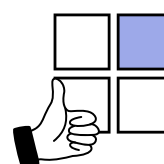

Skip PowerShell

All the scripts you'd write yourself are just a click away. But if the command line is your thing, we got you.

Empower users safely

Give users more freedom to use their tools. Easily set up guardrails and enjoy more peace of mind.

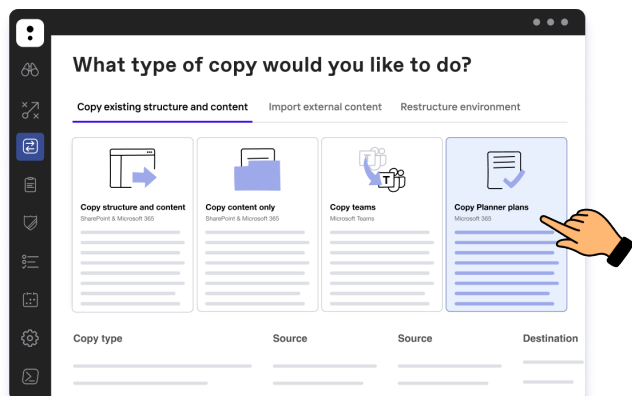

Keep up with Microsoft

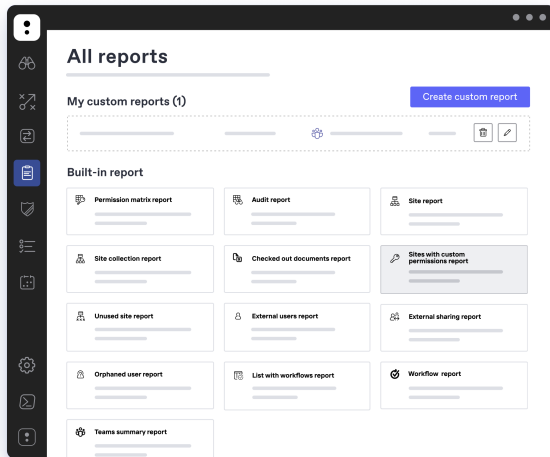

We ship you new features often, so you can follow best practices and stay ahead of the curve.

SMOOTH MIGRATIONS

Migrate and organize your SharePoint or Teams environments with ease so your users can work seamlessly using modern tools.

- ✓ **Easy-to-use** – with an intuitive UI and simple drag and drop functionality, get it done now or schedule the move anytime. Easy!
- ✓ **No data cap** – migrate and reorganize content as much as you want for one fixed price. Score!
- ✓ **Fully configurable** – lift and shift or customize, modernize, and restructure as you move content. You choose!
- ✓ **Bulk edits** – modify all your metadata and content types within a list or library in one simple procedure. Boom!

ACTIONABLE REPORTING

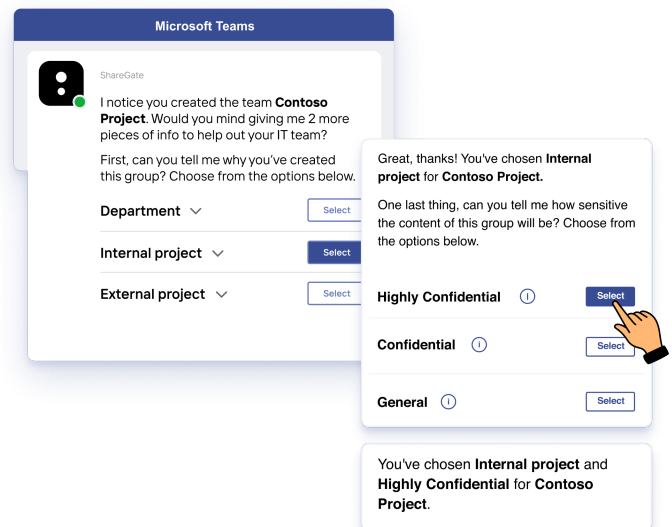

Built-in and custom reports help you understand what's going on in your environment and course-correct before things go wrong.

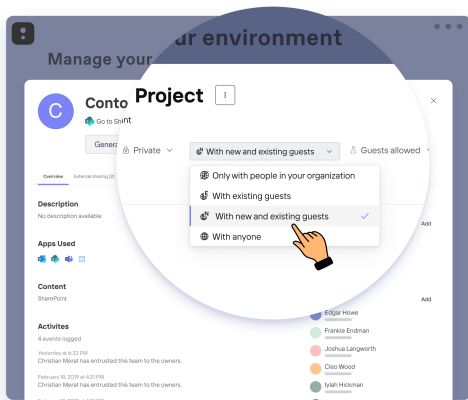

- ✓ **Centralized view** – no need to jump from one Microsoft 365 admin center to the next. Nice!
- ✓ **Fast fixes** – if an issue is found, jump to tips for resolutions direct from reports. Fix it and forget it!
- ✓ **Built-in and custom SharePoint reports** – inventory reports, unused sites, audit reports and more.
- ✓ **Teams and M365 groups reports** – orphaned teams, inactive teams, team purpose and sensitivity, teams with externally shared files and guests.

CLOSE-THE-LOOP AUTOMATION

With collaborative tools such as ShareGate's chatbot, you can automate interactions with owners to clean up, organize, and govern your tenant.

- ✓ **Faster investigations** – ShareGate highlights the gaps for you without the need for Azure AD Premium. Sweet!
- ✓ **Faster resolutions** – team owners hold the keys to set things like purpose and sensitivity. ShareGate automates collaboration with owners to close those gaps. Hands free!
- ✓ **Automations include** – collecting purpose and sensitivity for teams, cleaning up inactive teams (identify, qualify, maintain/delete/archive), external links and guest management.

FLEXIBLE PERMISSIONS MANAGEMENT

Ensure the right people have access to the right things so you can protect sensitive data.

Manage in bulk – copy permissions from one or multiple users to others or apply list and library content permissions from one user to another - then quickly make adjustments. Fast and simple!

Granular control – right-size your permissions to the needs of each team based on its level of sensitivity. Slam dunk!

Permissions Matrix Report – a single report provides a complete view of your permissions architecture and configuration – all in one place. Easy peasy!
