

Build Better with Bluebeam

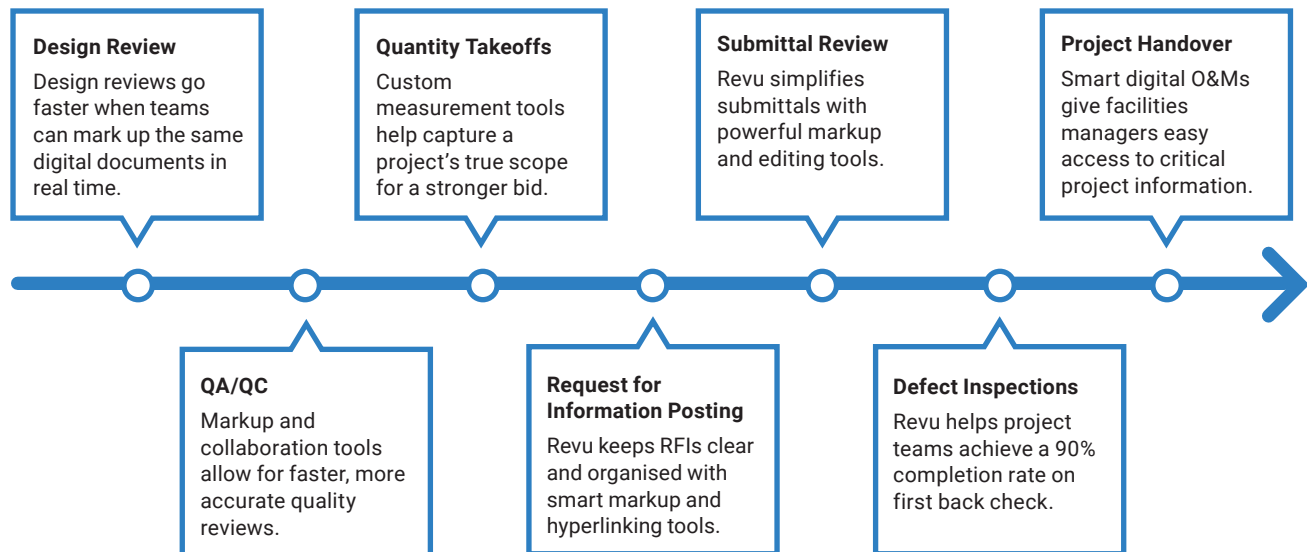

Trusted by over 2 million AEC professionals worldwide, Bluebeam® Revu® allows you to simplify complex tasks and collaborate in real-time to get the job done, faster. Whether you're in the office or the field, Revu gives you the smart tools you need to keep your team in sync and get the job done right—anytime, anywhere.

Save time and money, project after project

Bluebeam surveyed users* from around the world and Revu helped:

- 82% saved time
- 88% improved work quality
- 76% boosted efficiency

Revu gives you better results for every phase of your project

Get more done, together

Studio in Revu allows you to easily invite team members from anywhere in the world to securely collaborate in real time and finish projects faster. It also gives you a centralised place to create, annotate and share documents, so projects always stay on track and teams are aligned every step of the way. Studio is built for secure, global collaboration, with regional servers in Australia, USA, EU, and UK.
