

The Laptop Experts

PERFORMANCE.  
TURNED UP TO 11.

Powering your business future with  
40 years of laptop innovation.

## THE LAPTOP EXPERTS

With Windows 10 support ending in October 2025, it's the perfect time to upgrade. Choose Dynabook to transform your business with laptops that deliver unmatched security, reliability and performance, tailored to meet the needs of businesses of all sizes—from startups to global enterprises.

Dynabook's range of business-ready laptops are designed to perform:

*Business Premium*

### PORTÉGÉ

**The flagship ultra-light powerhouse.**

Among the world's lightest business laptops, featuring premium magnesium alloy chassis and enterprise-grade security. Designed for executives and mobile professionals who demand excellence without compromise.

*Business Enhance*

### TECRA

**Where reliability meets performance.**

Military-grade durability combined with powerful processing capabilities make this the professional's choice for demanding business environments. Engineered for versatility and built to last.

*Business Essential*

### Satellite Pro

**Balancing power and design for productivity**

Reliable, secure, and powerful enough for any business task, making it the ideal choice for small-to-medium businesses and education sectors. Quality computing that doesn't compromise on performance.
