One product, one plan, one price

Enterprise grade portal

Includes all integrations

Enjoy all features included as standard.

Discover The Halo Way.

Halo is on an **exciting journey** – from bedroom start-up to a **global disruptive** service player that's a full alternative to ServiceNow, Dynamics, ConnectWise and Autotask.

Most importantly we've done this while being **privately owned** and founder-led. We are committed to maintaining control over our company's direction for a **rolling 10+ year period** – giving the stability that modern MSPs require for their **long-term innovation plans**.

Our core focus is to **drive positive change** in the tech industry.

"Perfect for every MSP"

"A very feature-rich PSA that's highly customisable. The modular design of the product is great!"

Matthew Rifat, Technical Director at Roundworks IT

**3,000+ MSPs, From 75 Countries, Trust HaloPSA To Deliver
Their PSA Software.**
